Printronix P8000/P7000 Cartridge Consumables

The Printronix Cartridge Series of Line Matrix Printers provides a flexible design, adaptable functionality and manageable savings including the lowest cost for consumables and total cost of ownership.

LONGER LASTING INK = Fewer ribbon changes yield more productivity and contribute to a lower cost of ownership.

LEADING EDGE RIBBON TECHNOLOGY = Less IT interventions reduce downtime, with a patented ribbon jam prevention system. The high-density ribbon yields a longer life and a darker print quality.

EMBEDDED MICROCHIP = Provides precise, integrated control over ribbon life, print quality and operating costs. Productivity is improved by preventing interruptions of long print runs.

CARTRIDGE RIBBON DESIGN = With the self contained cartridge ribbon, changing ribbons is easier, cleaner and faster when compared to spool ribbons and laser toner cartridges.

BACKWARDS COMPATIBILITY = Ribbon cartridges for the P8000 are backwards compatible with P7000 printers for reduced inventory management cost and simplified ordering.

ENVIRONMENTAL ADVANTAGE = Printronix cartridge ribbons are far more sustainable than laser toner cartridges as they contribute substantially less consumables waste, and allow for printing on paper containing a higher % of recycled content.
