GENUINE PRINTRONIX AUTO ID SUPPLIES

You've chosen the best printer for the job. Now it's time to choose the best supplies for your printer.

At Printronix Auto ID, our commitment to your particular application doesn't end at your printer. Our commitment continues throughout the life of your application and with each and every printout.

We understand that your complete satisfaction is based on efficiency, quality and total solution support. This is why we offer a comprehensive selection of Genuine Supplies that will provide GUARANTEED performance through your Printronix Auto ID printer.

- Thermal Transfer and Direct Thermal Labels
- Tags
- Receipt/Transaction supplies for Mobile printer applications
- Specialty/Custom Labels, Tags for any application
- Thermal Transfer Ribbons
- Printer/Printhead Cleaning Products

All of our supplies have been thoroughly tested and qualified through our printers so that we can offer the "perfect match." This means that through the optimized combination of your Printronix Auto ID printer and Genuine Printronix Auto ID Supplies, you will enhance your efficiency, minimize your costs and enjoy a "no-worry" printing solution.

Genuine Printronix Auto ID Supplies are available to support virtually any type of application:

- Healthcare
- Transportation
- Retail
- Logistics
- Manufacturing
- Entertainment and Hospitality

Why choose Genuine Printronix Auto ID Supplies?

Guaranteed Quality
Genuine Printronix Auto ID Supplies are manufactured to strict quality standards to ensure optimum performance and user satisfaction.

Guaranteed Compatibility
From core to cut, Genuine Printronix Auto ID Supplies are designed to work flawlessly through your Printronix Auto ID printer.

Consistent Performance
From the first label to the last and from one order to the next, Genuine Printronix Auto ID Supplies will provide clear, crisp imaging and consistent performance.

"No Worry" Reliability
Printronix Auto ID quality control, manufacturing and component standards ensure "No Worry" reliability.

Comprehensive Product Portfolio
A wide selection of Genuine Printronix Auto ID Supplies are available for all Printronix Auto ID printer models. Most items are in stock and available to ship within 24 hours.

Product Availability
With manufacturing and distribution points throughout Europe, your supplies will be where you need them, when you need them.

Maximum Hardware Performance
Genuine Printronix Auto ID Supplies are designed to optimize the performance of your Printronix Auto ID printer.

WE'RE HERE TO HELP

At Printronix Auto ID, we're all about supporting our valued partners at all levels and in any way we can. Our product expertise runs deep and our supplies knowledge base is comprehensive. With product experts that can help and guide you through all stages of your consumables application, you can be assured that your printer supplies will be optimized in form, fit and function.

In addition to exceptional product support, we also offer an ever-expanding suite of resource materials to help you communicate and promote Genuine Printronix Auto ID Supplies to your customers. We're happy to supply application-specific and product-specific flyers to you in hardcopy or electronic format. We will also include your branding, if desired.

Need help with material testing? We can support your requirements and make proper material and application recommendations through testing and diagnostics.

Need something else? Let us know! We're here to help.

Mantenimiento periféricos Informáticos SL C/Canteras,15 22860 Paracuellos de Jarama (Madrid) tel: 917 481 604 web:https://mpi.com.es/

CUSTOM PRODUCTS

From design to delivery, Printronix Auto ID is your partner for applications requiring a custom supply solution. With our extensive manufacturing capabilities and our access to a wide range of materials and adhesives, our product experts can help provide the proper solution to your unique label, tag or receipt requirement.

CAPABILITIES

- Flexographic printing up to 12 colors
- Digital printing for short run and multi-lot requirements
- Full prepress support – design to proof to plate
- Wide range of papers, films and adhesives
- Laminates, varnishes and specialty coatings

We're here to help you choose a product construction best suited to the demands of your application and we'll work with you through the entire process, providing material samples and design proofs as required. With manufacturing facilities located throughout the U.S., your custom supplies can be delivered fast and cost effectively.

Looking for additional ways to obtain the lowest possible price for your custom supplies? Check out our FlexShip Program. With this program you can take advantage of volume pricing…and only take delivery of product as you need it. We'll warehouse your product and invoice only what you release, when you release it. Contact your Printronix Auto ID sales representative for program details.

FLEXSHIP PROGRAM

At Printronix Auto ID, we're committed to bringing you the most cost effective solution to your custom label application. This is why we offer our FlexShip Program.

With this program, you'll enjoy the lowest possible price by allowing us to run your product in volume…up to your semi-annual (180 day) usage amount. Additionally, we'll only ship and invoice your product when you tell us to release it. This means that you not only save money, you can also save valuable warehouse space by only bringing in what you need, when you need it.

THE PROGRAM IS SIMPLE:

- Applies to custom run product only, not stock product
- Program is supported from most Printronix Auto ID distribution locations
- We'll warehouse your product for up to 180 days
- We'll release what you want when you want it, anytime within the 180-day period
- You will only be invoiced as we release your product

The Printronix Auto ID FLEXSHIP PROGRAM is a great way to take advantage of our extensive manufacturing capabilities:

- Flexographic printing up to 12 colors
- Digital printing for short run and multi-lot requirements
- Full prepress support – design to proof to plate
- Wide range of papers, films and adhesives
- Laminates, varnishes and specialty coatings

Ask your Printronix Auto ID sales representative for the program sign-up form and detailed Terms and Conditions.

INDUSTRIAL PRINTING SOLUTIONS

Printronix Auto ID industrial grade printers provide the best solution for high volume, high quality printing in support of a wide range of industries and applications. Genuine Printronix Auto ID Supplies are a crucial component of this solution. We understand the important relationship between the printer and the media in terms of print quality, print speeds and efficient, cost-effective functionality.

By choosing Genuine Printronix Auto ID Supplies, the guesswork is taken out of your choice of ribbons.

Looking for a perfect match and "No Worry" reliability? You've found it with Genuine Printronix Auto ID Supplies.

INDUSTRIAL PRINTING SUPPLIES:

- Thermal Transfer Labels (8" o.d. rolls) ..... Pg. 8
- Direct Thermal Labels (8" o.d. rolls) ..... Pg. 10
- RFID Labels ..... Pg. 11
- Thermal Transfer Ribbons (450m length) ..... Pg. 13
- Thermal Transfer Ribbons (625m length) ..... Pg. 15

Applications

- Shipping and Receiving
- Inventory Management
- Order Fulfillment
- Cross Dock
- Asset Identification
- Compliance Labeling
- Track and trace
- Work-in-Process labels
- Reverse Logistics
- Chemical Drum Labeling
- Pallet Labeling

HELPFUL TIP

Matching the proper ribbon formulation to your label material is the most important step in making sure your thermal transfer printing operation is successful. Your Printronix Auto ID Supplies Expert can recommend the correct ribbon product for your application and will be more than happy to send a free sample of any ribbon formulation we offer so that you can test.

All rolls are Non-perforated. Perforated rolls available upon request. Sold in full case quantities only.

Mantenimiento periféricos Informáticos SL C/Canteras,15 22860 Paracuellos de Jarama (Madrid) tel: 917 481 604 web:https://mpi.com.es/

NON-TOPCOATED VS. TOPCOATED DIRECT THERMAL MATERIAL

Direct thermal materials utilize a heat sensitive, direct thermal coating that produces an image when in contact with the energized thermal printhead within your printer. The direct thermal coating is also sensitive to other environmental factors such as chemical contact, humidity, UV exposure and abrasion. These factors can destroy or degrade the quality of your printed image. To help protect your printed image from these environmental factors, materials are available with a clear, protective top-coating. This top coat acts as a barrier to help resist the effects of image-degrading environmental factors.

Which is right for your application?

NON-TOPCOATED PRODUCT

The most economical choice, non-topcoated materials are acceptable for short duration labeling applications requiring limited environmental resistance.

TOPCOATED PRODUCT

Best for applications where the label will be subjected to abrasion, sunlight, moisture or light chemical contact.

Your Printronix Auto ID supplies expert can help you determine the proper choice for your label application.

Mantenimiento periféricos Informáticos SL C/Canteras,15 22860 Paracuellos de Jarama (Madrid) tel: 917 481 604 web:https://mpi.com.es/

DIRECT THERMAL LABEL ROLLS – MEDIA 200

UNCOATED DIRECT THERMAL PAPER

200mm maxmum outside diameter rolls / 76mm inside diameter core / Permanent adhesive (acrylic)

For use in the following Printronix Auto ID printers:

Up to 105mm label width - SL5000r-ES (4" model), T6000 (4" model), T8000 (4" model), T2N, SL4M, T4M
Up to 149mm label width - SL5000r-ES (6" model), T6000 (6" model), T8000 (6" model)

PART NO.	LABEL WIDTH (mm)	x	LENGTH (mm)	LABELS/ ROLL	ROLLS/ CTN	CTN WEIGHT (kg)	LIST PRICE/ CTN	LIST PRICE/ ROLL

RFID TECHNOLOGY

RFID smart labeling is an emerging means of product identification that has been adopted by retailers and governmental agencies to track the movement of products throughout the supply chain.

A smart label is a pressure-sensitive label with an RFID transponder (inlay) embedded between the label face stock and its release liner. This RFID tag can be encoded with large amounts of variable information which can be gathered by an RFID reader. Unlike bar codes, RFID data can be accessed without the visibility of the tag itself, and multiple RFID smart labels can be read at the same time.

Various standards have been developed to support the use of RFID in today's data rich trading networks. Printronix Auto ID has the capability to supply RFID smart labels that will meet both established and emerging standards.

PERFORMANCE GUARANTEE

Printronix Auto ID RFID labels are certified by the inlay manufacturer, inspected to isolate and remove bad tags, and re-verified after encoding using Printronix Auto ID smart label encoders, printer-encoders and application equipment. Genuine Printronix Auto ID RFID labels are guaranteed to perform to your satisfaction.

DESKTOP PRINTING SOLUTIONS

Known for their reliability, compact footprint and user-friendly capabilities, Printronix Auto ID desktop printers provide an unmatched solution for lighter volume printing needs. Genuine Printronix Auto ID Supplies are a crucial component of this solution. We understand the important relationship between the printer and the media in terms of print quality, print speeds and efficient, cost-effective functionality.

By choosing Genuine Printronix Auto ID Supplies, the guesswork is taken out of your choice of supplies.

Looking for a perfect match and "No Worry" reliability? You've found it with Genuine Printronix Auto ID Supplies.

DESKTOP PRINTING SUPPLIES:

- Thermal Transfer Labels (5" o.d. rolls) ..... Pg. 18
- Direct Thermal Labels (5" o.d. roll).....Pg. 20
- Thermal Transfer Ribbons (110m length) .....Pg. 21

Applications

- Address Labels
- Component Labeling
- Lab Sample Tracking
- Jewelry Identification
- Work-in Process Labels
- Retail Shelf Labels
- Patient Tracking
- Point-of-Sale
- Product Marking
- Pharmaceutical Labels
- Medical Records Labeling

HELPFUL TIP

Direct Thermal or Thermal Transfer printing– which is right for you? For short term labeling applications in which the label is not exposed to harsh physical or environmental conditions, Direct Thermal may be the best option. If your label needs to last for an extended period of time and/or will be subjected to moisture, chemicals, high heat or direct sunlight…then Thermal Transfer should be considered. Your Printronix Auto ID Supplies Expert is trained to ask the right questions to help you determine what's right for YOUR application.

Mantenimiento periféricos Informáticos SL C/Canteras,15 22860 Paracuellos de Jarama (Madrid) tel: 917 481 604 web:https://mpi.com.es/

THERMAL TRANSFER LABEL ROLLS – MEDIA 90

UNCOATED THERMAL TRANSFER PAPER

127mm outside diameter rolls / 25mm inside diameter core / Permanent adhesive (acrylic)

For use in the following Printronix Auto ID printers: T600

PART NO.	LABEL WIDTH (mm)	x	LENGTH (mm)	LABELS/ ROLL	ROLLS/ CTN	CTN WEIGHT (kg)	LIST PRICE/ CTN	LIST PRICE/ ROLL
P150199-001	105	x	74	950	4	4	**38.50 €**	**9.63 €**
P150200-001	105	x	148	470	4	4	**38.30 €**	**9.58 €**

All rolls are Non-perforated. Perforated rolls available upon request. Sold in full case quantities only.

THERMAL TRANSFER LABEL ROLLS – MEDIA 100

PREMIUM SEMI-GLOSS THERMAL TRANSFER PAPER

127mm outside diameter rolls / 25mm inside diameter core / Permanent adhesive (acrylic)

For use in the following Printronix Auto ID printers: T600

PART NO.	LABEL WIDTH (mm)	x	LENGTH (mm)	LABELS/ ROLL	ROLLS/ CTN	CTN WEIGHT (kg)	LIST PRICE/ CTN	LIST PRICE/ ROLL

All rolls are Non-perforated. Perforated rolls available upon request. Sold in full case quantities only.

Mantenimiento periféricos Informáticos SL C/Canteras,15 22860 Paracuellos de Jarama (Madrid) tel: 917 481 604 web:https://mpi.com.es/

NON-TOPCOATED VS. TOPCOATED DIRECT THERMAL MATERIAL

Direct thermal materials utilize a heat sensitive, direct thermal coating that produces an image when in contact with the energized thermal printhead within your printer. The direct thermal coating is also sensitive to other environmental factors such as chemical contact, humidity, UV exposure and abrasion. These factors can destroy or degrade the quality of your printed image. To help protect your printed image from these environmental factors, materials are available with a clear, protective top-coating. This top coat acts as a barrier to help resist the effects of image-degrading environmental factors.

Which is right for your application?

NON-TOPCOATED PRODUCT

The most economical choice, non-topcoated materials are acceptable for short duration labeling applications requiring limited environmental resistance.

TOPCOATED PRODUCT

Best for applications where the label will be subjected to abrasion, sunlight, moisture or light chemical contact.

Your Printronix Auto ID supplies expert can help you determine the proper choice for your label application.

MOBILE PRINTING SOLUTIONS

Mobile printing applications present some of the toughest and most varied printing environments. This is why all of the supplies we offer for the M4L2 mobile printer are designed to meet the most demanding application challenges.

For receipt applications, we've introduced a comprehensive line of receipt papers designed to meet the demands of any environment in which your M4L2 operates. With three options to choose from, our receipt grades are designed to maximize the output and efficiency of your M4L2 mobile printer.

Genuine Printronix Auto ID M4L2 receipt supplies will provide the most cost-effective, no-hassle solution available.

STANDARD RECEIPT
Standard sensitivity receipt grade with good overall imaging characteristics. Designed for general purpose printing applications. Provides an excellent balance between quality and economy.

PREMIUM RECEIPT
High sensitivity receipt grade that produces clean, dark images. Recommended for barcode and graphics printing where image quality is crucial. Phenol-Free

PREMIUM DURABLE RECEIPT
Top coated for excellent environmental resistance and made with a heavier paper stock for durability and a premium feel. High sensitivity for dark, crisp images. Phenol-Free

Applications

- Inventory Management
- Process Compliance
- Direct Store Delivery
- Cross-Dock Operations
- Fleet Management
- Field Service
- Electronic Citations/Parking Violations
- Ticketing Operations
- Linebusting
- Product Picking and Shipping

MOBILE PRINTING SUPPLIES:

- M4L2 Receipt..... Pg. 24

HELPFUL TIP

Increasing the energy level of the printhead in your mobile printer will yield a darker image. But there's a tradeoff…the higher energy setting will drain the battery faster and result in a shorter duty cycle between charges. Optimizing your printer settings to the media you use will yield the perfect balance. Your Printronix Auto ID Supplies Expert can help.

Mantenimiento periféricos Informáticos SL C/Canteras,15 22860 Paracuellos de Jarama (Madrid) tel: 917 481 604 web:https://mpi.com.es/

CLEANING SUPPLIES

Printronix Auto ID's line of thermal printer cleaning supplies are designed to support two crucial objectives:

1. Ensure clean, consistent printing with optimal image clarity and density
2. Maximize the life of the thermal printhead and printing mechanism

With a simple cleaning routine, you can be rewarded with optimum operational efficiencies, reduced service calls and maximum equipment life.

Adhesive, dust and environmental contaminates all contribute to:

- Print voids
- Barcode scan issues
- Paper and label jams
- Poor print quality
- Printhead failure

CLEANING CARDS
Designed to remove the most stubborn contaminates from the thermal printhead and the full circumference of the rollers.

CLEANING SWABS
Effectively cleans the thermal printhead, platen roller and other interior surfaces. A foam tip on a slender, 5" applicator makes this an easy-to-use solution.

CLEANING PENS
Effectively removes dirt, ink and other environmental contaminates from easily accessible printheads.

CLEANING WIPES
Pre-Saturated wipes designed for cleaning the interior of the printer as well as the thermal printhead.

HELPFUL TIP

Cleaning your printhead on a regular basis will greatly reduce the occurrence of voids, image pitting and inconsistent image quality due to dust and other contaminates. Cleaning is a quick and simple process that will also maximize the life of your printhead.

CLEANING SUPPLIES

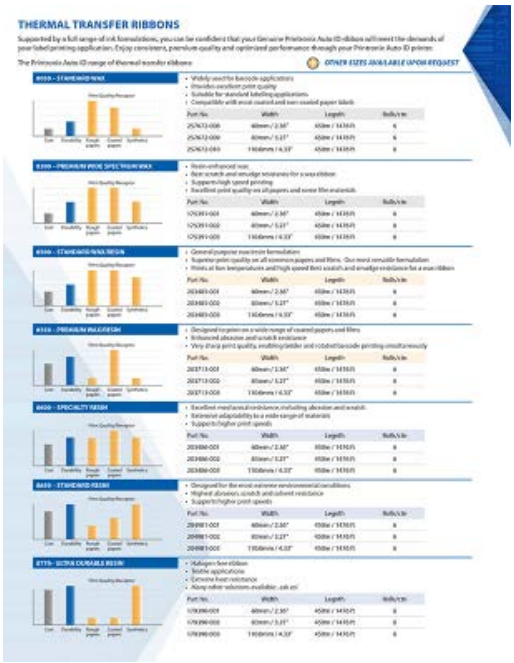
THERMAL TRANSFER RIBBONS

Supported by a full range of ink formulations, you can be confident that your Genuine Printronix Auto ID Ribbon will meet the demands of your label printing application. Enjoy consistent, premium quality and optimized performance through your Printronix Auto ID printer.

BE SURE TO REFER TO OUR TTR DATASHEETS FOR:

- Printronix Auto ID printer compatibility
- Part numbers and item specifications
- Label material compatibility charts
- Ribbon formulation characteristics



The Printronix Auto ID range of thermal transfer ribbons:

8050 – STANDARD WAX

- Widely used for barcode applications. Provides excellent print quality
- Suitable for standard labeling applications
- Compatible with most coated and non- coated paper labels

8300 – PREMIUM WIDE SPECTRUM WAX

- Resin-enhanced wax
- Best scratch and smudge resistance for a wax ribbon
- Supports high speed printing
- Excellent print quality on all papers and some film materials

8550 – STANDARD WAX/RESIN

- General purpose wax/resin formulation
- Superior print quality on all common papers and films. Our most versatile formulation
- Prints at low temperatures and high speed

8580 – PREMIUM WAX/RESIN

- Designed to print on a wide range of coated papers and films
- Very sharp print quality, enabling ladder and rotated barcode printing simultaneously
- Enhanced abrasion and scratch resistance

8650 – STANDARD RESIN

- Adaptable to a wide range of label materials
- Supports high speed printing
- Very high resistance to solvents and abrasion

8770 – ULTRA DURABLE RESIN

- Developed for extreme environment labeling
- Unmatched scratch and solvent resistance
- Maximum durability

SPECIALTY RIBBONS

- A variety of colors are available for our wax, wax/resin and resin formulations
- Textile applications
- Extreme heat resistance
- Many other solutions available... ask us!

YOUR PRINTRONIX AUTO ID SUPPLIES EXPERT WILL WORK WITH YOU TO DETERMINE THE CORRECT RIBBON FORMULATION FOR YOUR NEEDS.

MARKETING RESOURCES

Our goal is to provide our valued partners with comprehensive supplies support…before, during and after the sale. As part of this goal, we offer a continuously expanding "library" of marketing support material to help communicate the scope and value of Genuine Printronix Auto ID Supplies. Available in PDF and hard copy format.

Additionally, we offer supplies product and application training – from basic "101" tutorials to more in-depth training that targets specific products or product lines. Our supplies expertise runs deep and we welcome the opportunity to share our knowledge and advice with our partners.

Contact us to let us know how we can support your sales effort…we're here to help!
